Beautiful Design.
Beautifully Attainable.

2026

The Art of Making Affordable Furniture Feel Luxurious

You could spend a lifetime discovering unique British buildings, furniture and landmarks; we have.

From the very beginning, Crofts and Assinder has specialised in the design and manufacture of extraordinary cabinet handles and luxury fittings.

In our 150 year history, we have had the priviledge of dressing furniture at some of London's prestigious landmark hotels such as The Ritz and The Waldorf, in addition to many other notable projects throughout the world such as Parliament House in Buenos Aires and elegant cruise ships of the Cunard and White Star Line.

With that in mind, we're excited to introduce: Studio Handbook. A contemporary bedroom brand encapsulating beautifully engineered hardware with a calm, modern aesthetic.

Designed for both residential and contract interiors, it combines considered design which is uncompromisingly C&A, quality finishes and premium concepts at an approachable price point; making it an essential for contract projects.

FAQ's

How do I order?
Please phone or e-mail our Birmingham Headquarters:
T: +44 (0) 121 622 1074
E: general@crofts.co.uk

What are our hours of business?
Monday – Thursday 08:00 – 16:30
Friday 08:15 – 12:30

How do we interpret your dimensional information?
All of our handle measurements are in metric sizes with dimensions given in millimetres except a few select products for our overseas customers. A few of our larger handles may be tapped with M6 threads. Please ask our Customer Support Team for confirmation when ordering. Dimensions of cast iron hardware may vary slightly due to the manufacturing process.

Standard sizing is:
64mm, 96mm, 128mm 160mm fixing centres for cup handles.
128mm, 160mm, 192mm, 256mm & 305mm fixing centres for pull handles.

How are your products packed?
Our handles are packaged in protective packaging made from recycled materials.
Handles come with the appropriate screws, usually an M4 25mm and 45mm snap-off per fixing hole or M6 for larger appliance handles. Box quantities range from 10 – 50 pieces depending upon the size of the product. For non-standard packaging and alternative screw lengths, please contact our Customer Support Team on + 44 (0) 121 622 1074.

How do we fit your products?
Please hand-tighten the products using the screws provided and avoid using power tools for installation.

How can I hear about new developments in your company?
We have a team of Regional and International Account Managers and a helpful Customer Support team that are up to date with developments and ready to take calls and respond to emails.

Alternatively sign up to our mailing list or:
Follow us on socials: crofts_assinder

What are your lead times?
Although lead times may clearly alter between country regions, 98% of UK orders are satisfied from stock and despatched within 2-3 working days.

Particularly large quantities may occasionally be subject to a lengthier lead time, and we would always encourage customers to proactively speak to our Customer Support Team as early as possible and we will do everything possible to help meet any critical delivery dates.

Can we reproduce C&A product images?
All copyright and intellectual property rights are the property of Crofts & Assinder Ltd. No persons can reproduce any part of this catalogue by any means, electronic or mechanical without prior written permission from the Company.

What are your Terms & Conditions?
Our Terms and Conditions may be obtained from our Customer Support Team and hey accompany all account application forms as well as being available on our website.

Error & Omissions Excepted
Due to our policy of continued product development, we reserve the right to alter materials and specifications without prior notice. Please contact our Sales Team for further information.

Although every care has been taken to ensure the accuracy of the information in this catalogue, we cannot accept responsibility for omissions or inaccuracies.

Non-Standard Finishes
Standard finishes are shown against each product displayed.

In cases where non-standard finishes are requested, MOQ's and longer lead times may apply as these will be produced on a bespoke basis. Due to the nature of our products, many of which are hand finished, there may be some variations in finish from batch to batch.

Product Care Instructions
To prolong the life of this product we recommend cleaning when required using lukewarm water on a damp, well wrung-out lint free cloth. Also, the use of a soft-bristled toothbrush can be used for the removal of dirt trapped in the knurling or grooves. Once clean, ensure to thoroughly dry with a soft cloth, paying particular attention to the base of the stem of the product. A light coating of natural wax will help seal any chips or scratches.

We strongly advise never to use commercial chemical or abrasive cleaning products on any Crofts & Assinder products, including antibacterial cleaners. These will remove the protective coating and the product may become damaged, possibly changing the appearance as a result. Also, little chips or scratches in the lacquer will allow the air to tarnish the metal underneath over time. So particular care is required by following these instructions, otherwise the 12-month warranty may become invalid.

Finishes

The table below illustrates the range of finishes that can be applied to specific base materials. Standard finishes are highlighted throughout the catalogue next to each product. Please note that for non-standard finishes minimum order quantities and longer lead times may apply.

Finish	Iron	Mazak	Brass	Aluminium
American Bronze (AB)		✓		✓
American Copper (AC)		✓		
Gunmetal (BI)		✓	✓	
Brushed Satin Brass (BSB)		✓	✓	✓

Additional Notes

At the Forefront of Sustainability in the Industry

Our uniquely British design ethos is built on a long history of innovation and quality, but our focus remains firmly on the future. We are committed to creating products responsibly, nurturing our people, respecting our partners, and reducing our impact on the planet.

This includes the use of recycled materials wherever possible, long product lifecycles, and ethical trading partnerships. We believe sustainability is achieved not through short term solutions, but through thoughtful design, considered processes and continual improvement, as well as a commitment that all of our products can be recycled at the end of their life cycle.

Colour Reproduction

Due to photographic and printing processes some colours may not be a true representation of the product. Please see actual sample for colour.

Changes & Modifications

From time to time, as part of our continual product improvement program, Crofts & Assinder may need to modify tooling or design aspects. During this process small changes to the product may be applied. Crofts & Assinder reserves the right to make these changes without prior notification.

Intellectual Property

We protect and defend our intellectual property rights globally, particularly by means of Design Patents in the USA and Registered Designs in the UK & Europe.

Crofts & Assinder is an active member of ACID, a hard hitting action group committed to combating copyright theft. Please visit www.acid.co.uk for more details.
